

## Bus Ticket Booking System –

As an Administrator:

Login to the System. Maintain the details of buses going on different routes.

Add, Delete or Edit the routes of the buses.

As a Customer:

Find buses on particular routes. Search buses based on particular Bus companies, time of journey etc. Filter/Sort buses based on time of departure/arrival. Book the ticket( no of seats must get reduced on a confirmed booking). Cancel booking( no of seats must get incremented).
